Dear Sirs,

**Re: Reference following report**

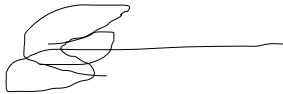

I write this letter for the purpose of a reference following preparation of a report by Mr Lloyd Moodie of LRM electrics:

*LRM Electrics were instructed to prepare a forensic report after our client suffered an electrical shock from faulty work equipment.*

*The report produced was completed promptly and covered all requested topics thoroughly and clearly. In particular, the expert went the extra mile by contacting the manufacturer of the equipment to get their input on the relevant issues. The expert used their own initiative and time to do and provided the case with evidence from a neutral party.*

*I would happily recommend their service.*

Yours sincerely,

Connor Sweetman
